

Key Features

- 0.25 ultra-short throw for space-saving installation
- 2nd generation Laser
 Phosphor technology
 with up to a 30,000 hour lifespan
- 5,000 ANSI lumens offering bright images in any environment
- Up to 170" ultra-large screen with lower costper-inch
- H/V keystone and 4corner adjustment for enhanced installation flexibility

Product **Description**

The LS832WU is part of ViewSonic's Luminous Superior series, a lamp-free high-brightness projector lineup designed for both commercial and educational spaces. This advanced 5,000 ANSI lumens WUXGA ultra short-throw laser projector is a go-to digital signage solution for public and commercial applications, such as museums, storefronts, shopping malls, and airports. The LS832WU's 0.25 ultra-short throw ratio allows for a 100" screen from only 28 cm away, and the screen size can be further expanded up to 170", offering a lower cost-per-inch compared to other types of commercial displays. Adopting the 2nd generation Laser Phosphor technology, it produces consistent high brightness for up to 30,000 hours lifespan. With H/V keystone and 4-corner image adjustment, the LS832WU also offers flexible installation options. Complete with comprehensive LAN control, it enables centralized management of multiple devices and is compatible with Crestron, AMX, Extron, and PJ Link AV control systems.
