- Cinema SuperColor+™ Technology with 125% Rec.709 wide colour gamut
- 0.69-0.83 short throw ratio with auto V & H/V keystone for easy setup
- Custom-built speakers by Harman Kardon

Product Omschrijving

The X2 is ViewSonic's first lamp-free high brightness short throw smart projector for home. Powered by 3rd generation LED technology and 3,100 LED Lumens of brightness, the X2 replaces frequent lamp replacement and toxic mercury with immediate and immersive big-screen entertainment through instant on/off capability, cinematic colours covering 125% Rec.709, and an impressive lifespan of 30,000 hours. And with a 0.69-0.83 short throw ratio, you can go big even in small spaces with a 100" display from only 1.53m away. Dual speakers customised by Harman Kardon deliver powerful, room-filling sound for movie nights or music streamed directly from your smartphone, with the option to connect Bluetooth headphones for personal entertainment. Embedded Wi-Fi connectivity enables screen mirroring directly from smart devices to the big screen, making content streaming easier than ever. And with 1.2x optical zoom, H&V keystone, and 4-corner adjustment capabilities, setting up this 1080p projector is a breeze, even with limited space.
